

BLACK SANDS
INDUSTRIES

COMPANY PROFILE

About Us

Black Sands Industries (BSI) is a diversified industrial consortium established in Qatar to serve the Oil & Gas, EPC, Advanced Technologies, Industrial manufacturing and Logistics sectors across the GCC. Formed through the collaboration of experienced regional and international partners, BSI brings together strong resources, proven industry expertise, and advanced technologies to deliver reliable and large-scale industrial solutions.

Our operations cover a broad spectrum including energy services, engineering, technology integration, manufacturing, and logistics, allowing us to support both government and private sector clients. By combining global best practices with local market knowledge, BSI is committed to building long-term value and supporting the industrial and economic development objectives of Qatar and the wider GCC.

Vision

To be a leading industrial consortium in Qatar and the GCC, recognized for advancing the Oil & Gas, EPC, Advanced Technologies, and Industrial Logistics sectors through innovation, sustainable growth, and strategic partnerships.

Mission

Our mission is to deliver comprehensive and sustainable industrial solutions that create long-term value for our clients, partners, and stakeholders. We are committed to combining global expertise with local strengths to support critical energy, infrastructure, and logistics needs across the GCC. By integrating advanced technologies, fostering industrial self-reliance, and maintaining the highest standards of safety and quality, BSI strives to contribute meaningfully to the economic diversification and development goals of Qatar and the wider region.

Core Values

Customer Focus

Our clients' needs shape our actions — we provide responsive, tailored solutions that create measurable value.

Excellence in Service

We commit to delivering the highest standards of quality, safety, and reliability across all our projects.

Integrity & Transparency

We operate with honesty and fairness, ensuring trust and clarity in every engagement.

Innovation & Improvement

We embrace new technologies and smarter practices, driving efficiency and long-term client satisfaction.

Safety First

We prioritize the safety of our workforce, clients, and communities, embedding safe practices in all operations.

People & Teamwork

We invest in our people, empowering skilled professionals and fostering collaboration to achieve success.

Sustainability & Responsibility

We act responsibly towards the environment and communities, supporting the Kingdom's sustainable growth goals.

Services Overview

At Black Sands Industries (BSI), our services are designed to cover the full spectrum of energy, engineering, technology, manufacturing, and logistics requirements across Qatar and the wider GCC.

Oil & Gas Solutions

We provide a wide range of products and services tailored to the upstream, midstream, and downstream sectors. Our offerings include:

- Supply of drilling equipment, rig components, parts, and consumables.
- Maintenance, inspection, and reliability support aligned with international standards.
- AI-driven predictive maintenance systems to minimize downtime and optimize asset utilization.
- Technical support and specialized services for shutdowns, turnarounds, and long-term O&M.

Through a strong network of global partners and OEMs, we ensure safe, reliable, and cost-effective solutions for critical Oil & Gas operations.

EPC Contracting

Our EPC capabilities span the full lifecycle of industrial and infrastructure projects, with expertise in:

- Civil, mechanical, and electrical engineering for energy and industrial facilities.
- Full-scale plant construction, commissioning, and upgrades for refineries, petrochemical plants, and utilities.
- Infrastructure development, including roads, utilities, and industrial facilities to support large-scale operations.
- Strict adherence to QHSE standards, PTW/LOTO systems, and international codes of practice.

We deliver projects with a focus on quality, safety, and timely execution, creating long-term value for stakeholders.

Advanced Technologies

BSI integrates cutting-edge technologies into traditional industries to enhance performance and sustainability. Our scope includes:

- Artificial Intelligence applications for surveillance, predictive analytics, and operational optimization.
- Digital twin and smart plant solutions enabling real-time monitoring and simulation of industrial assets.
- Automation and control systems for refineries, utilities, and logistics hubs.
- Cybersecurity and data-driven monitoring tools to protect and enhance operational continuity.

These innovations allow us to reduce costs, increase efficiency, and future-proof industrial operations.

Manufacturing

We are committed to building regional industrial capacity through advanced manufacturing facilities. Our key focus areas include:

- Production of industrial logistics trailers, low-beds, and head trucks tailored for GCC market requirements.
- Heavy equipment fabrication and machining, supported by state-of-the-art facilities and certified processes.
- OEM partnerships with leading international brands to ensure world-class standards and technology transfer.
- Development of engineered components, spare parts, and assemblies to support critical energy and infrastructure projects.

Through our manufacturing division, we aim to support GCC industrialization goals and provide sustainable, localized solutions.

Industrial Logistics & Distribution

Our logistics and distribution services are designed to handle the complex demands of heavy industries, with offerings such as:

- Fleet-based logistics solutions for Oil & Gas, petrochemicals, and infrastructure sectors.
- Heavy haulage and specialized transport for over-dimensional and critical equipment.
- Rig move services and mobilization support, ensuring safe and efficient relocation of drilling assets.
- Spare parts and equipment distribution, backed by strong supplier networks and supply chain expertise.

By integrating transportation, warehousing, and distribution, we provide seamless and cost-effective logistics support for clients across the GCC.

Industries We Serve

Oil & Gas Exploration & Production

Onshore and offshore operators: drilling equipment supply, rig components, AI-driven predictive maintenance, shutdown/turnaround support, and full HSE compliance. We help clients achieve safe, reliable, and cost-effective operations in critical energy environments.

Petrochemicals & Refining

Downstream plants, refineries, and petrochemical complexes: EPC execution, plant upgrades, asset integrity, and technology integration. Our expertise supports efficiency, safety, and productivity in high-demand processing facilities.

EPC & Infrastructure Projects

Energy, utilities, and industrial infrastructure projects: civil, mechanical, and electrical works, fabrication, and commissioning. We deliver turnkey project execution with a focus on quality, compliance, and long-term performance.

Industrial Manufacturing

Trailer and head truck production, heavy equipment fabrication, spare parts, and engineered components. We bring advanced manufacturing capabilities supported by leading OEM partnerships and modern facilities.

Power & Utilities

Power generation plants, water desalination, and utilities: mechanical and electrical works, predictive maintenance, and digital monitoring systems. We ensure resilient, efficient, and sustainable utility operations that support national infrastructure.

AI & Advanced Technologies

Artificial intelligence, predictive maintenance, and automation for Oil & Gas, EPC, and utility sectors. We deliver innovative technologies that enhance safety, optimize performance, and ensure industries remain resilient and competitive across the GCC.

Industrial Logistics & Mobility

Fleet distribution, and heavy transport solutions for Oil & Gas, manufacturing, and infrastructure sectors. We provide safe, efficient, and cost-effective logistics that strengthen regional supply chains and support large-scale industrial operations.

Mining & Metals

Mining operations and metal industries: heavy equipment support, logistics, EPC services, and technology-driven optimization. We provide integrated solutions that enhance productivity, improve safety, and ensure reliable performance in resource-intensive environments.

Renewable Energy & Sustainability

Solar, wind, and sustainable energy projects: EPC execution, grid integration, and smart energy systems. We deliver innovative renewable solutions that support national sustainability goals and the transition to cleaner energy across the GCC.

Value-Added Services

Beyond Services, Delivering Real Value to Our Clients.

Integrated Operating Model

Seamless coordination of all services under one umbrella.

- Reduces client overheads, improves efficiency, and provides a single accountability point.

Asset Management Approach

Lifecycle planning, asset tagging, and digital monitoring.

- Maximizes uptime, reduces replacement costs, and extends equipment life.

Technology & Digital Tools

AI platforms, sensors, and real-time dashboards.

- Ensures performance visibility, faster reporting, and transparent compliance.

Risk & Compliance Management

Adherence to International standards and codes.

- Guarantees zero non-compliance and smooth regulatory approvals.

Cost Efficiency & Sustainability

Energy savings, waste reduction, and predictive maintenance.

- Cuts OPEX while aligning with GCC Vision sustainability goals.

Skilled Workforce & Rapid Mobilization

Engineers, technicians, and certified manpower ready for deployment.

- Ensures quick project mobilization and uninterrupted service delivery.

Facility Overview

Black Sands Industries (BSI) operates from a fully integrated industrial facility strategically located in Doha, Qatar. Designed to support our diverse business lines, the facility combines manufacturing, warehousing, and yard operations under one roof, enabling efficiency, quality, and scalability.

Key Features:

- **Manufacturing Workshops** – Equipped for fabrication, machining, and assembly of drilling rigs and its associated equipment, parts & consumables for offshore / onshore, industrial trailers, heavy trucks, and engineered components.
- **Logistics Yard** – Dedicated space for equipment storage, mobilization, and heavy vehicle operations.
- **Warehouse** – Stocking of spare parts, consumables, and critical inventory for Oil & Gas and EPC projects.
- **Technology & Control Center** – Space allocated for AI, automation, and monitoring systems to support advanced industrial applications.
- **Office Complex** – Housing management, engineering, and operations teams, ensuring seamless coordination across all divisions.

Our Doha base positions BSI to serve both Qatar and the wider GCC, offering proximity to major clients, ports, and industrial zones. The facility reflects our commitment to building a sustainable, future-ready industrial hub that supports regional growth and self-sufficiency.

QHSE Policy

BSI is committed to achieving and maintaining excellence in all aspects of our manufacturing, engineering, construction and our other services. Our dedication to quality, health, safety, and environmental stewardship is integral to our business ethos and is reflected in our integrated QHSE management systems.

- **Quality Assurance:** Consistently delivering projects that meet or exceed the rigorous standards of our clients, as well as international quality benchmarks.
- **Health and Safety:** Providing a safe workplace by implementing proactive safety and occupational health measures that prevent workplace incidents and injuries.
- **Environmental Responsibility:** Minimizing environmental impact through sustainable practices and compliance with environmental regulations.
- **Continuous Improvement:** Employing a systematic approach to QHSE management by setting, reviewing, and refining objectives to achieve best-in-class performance.

Commitment to Standards

BSI maintains alignment with international standards to ensure continuous improvement of our QHSE practices. We adhere to:

- ISO 9001:2015
- ISO 14001:2015
- ISO 45001:2018

Operational Integrity and Compliance

We operate in compliance with all relevant legal and regulatory requirements and strive to incorporate best practices into our operations:

- **Risk Management:** Identifying and managing potential risks in all project phases to ensure safety and compliance.
- **Resource Efficiency:** Optimizing the use of resources across all operations to enhance efficiency and sustainability.
- **Stakeholder Engagement:** Engaging with clients, contractors, and communities to enhance QHSE awareness and performance.

Continual Improvement and Training

BSI is committed to fostering a culture of continual improvement and learning:

- **Employee Development:** Providing ongoing training and development opportunities to ensure our team is skilled in the latest QHSE practices.
- **Performance Monitoring:** Regularly evaluating our processes through audits and assessments to identify areas for improvement.
- **Innovation in Practices:** Encouraging innovative approaches to enhance QHSE outcomes across our projects.

This QHSE policy highlights BSI's commitment to operational excellence, safeguarding the well-being of our employees, our client's, and preserving the environment. It is the responsibility of every member of our organization to understand, promote, and implement this policy in their daily activities and across all operations.

Corporate Governance

At BSI, our Code of Conduct defines the principles that guide the way we do business. It ensures that our relationships with clients, employees, suppliers, and stakeholders are conducted with transparency, fairness, and accountability.

Integrity

We operate with honesty and transparency in all interactions, ensuring that every action reflects our commitment to ethical business practices.

Compliance

We adhere strictly to all local laws, regulations, and client-specific requirements, including International standards. Anti-bribery, anti-corruption, and zero tolerance for unethical behavior are central to our governance.

Fairness & Respect

We treat our employees, subcontractors, and partners with fairness and respect, upholding equal opportunity and diversity in our workforce.

Responsibility

We are accountable for the impact of our operations on society and the environment. Our business practices are aligned with sustainability goals and social responsibility.

By following this Code of Conduct, BSI ensures trust with our clients and stakeholders, while fostering a safe, ethical, and sustainable business environment.
